

TOXICOLOGY CENTRE STATUS REPORT

[<http://www.usask.ca/toxicology/>]

Mission: To deliver excellence in toxicology teaching and research.

Goals and objectives of the centre:

- I) To increase graduate and undergraduate student enrollment.
- II) To improve the student experience in teaching and research.
- III) To become an international leader in toxicology research.

Types of activities undertaken to achieve mandate: Strengthen linkages with other academic units on campus (e.g., increase or remove enrollment cap in undergraduate toxicology courses to fit the needs of other academic programs).

- I) Expand graduate course offerings and establish new programs (e.g., Human and Ecological Risk Assessment (HERA), Non-thesis Masters in Toxicology).
- II) Establish new partnerships and student exchange programs with leading international research institutions in toxicology (e.g., Umea University, Sweden; RWTH Aachen, Germany; City University of Hong Kong)

Governance:

Dr. David Janz, Acting Director, Department of Veterinary Biomedical Sciences,
Western College of Veterinary Medicine

Dr. Karsten Liber, Administrative Oversight, School of Environment and Sustainability

Dr. Michael Pietrock, Assistant Director, Department of Veterinary Biomedical Sciences,
Western College of Veterinary Medicine

Adriana Brown, Manager of Finance and Operation

Advisory Board:

Dr. Lawrence Martz (CGSR), Dr. Douglas Freeman (WCVM), Engin Ozberk (Cameco Corporation), John Rowson (AREVA Resources Canada Inc.), Dr. Abdul Jalil (Agriculture & Food Canada), Dr. Mark Wickstrom (WCVM), Dr. Jane Alcorn (College of Pharmacy and Nutrition), Meghan Goertzen (Toxicology Graduate Program), Dr. Jim Germida (Associate Vice-President (Academic)), Dr. Karen Chad (Vice-President Research), Dr. Steven Siciliano (Department of Soil Science)

Core Members:

Dr. Jane Alcorn, Associate Professor, College of Pharmacy and Nutrition

Dr. Barry Blakley, Department of Veterinary Biomedical Sciences, Western College of Veterinary Medicine

Dr. John Giesy, Professor and Canada Research Chair, Department of Veterinary Biomedical Sciences, Western College of Veterinary Medicine

Dr. Markus Hecker, Adjunct Professor

Dr. David Janz, Acting Director, Department of Veterinary Biomedical Sciences, Western College of Veterinary Medicine

Dr. Paul Jones, Associate Professor, School of Environment and Sustainability

Dr. Karsten Liber, Administrative Oversight, School of Environment and Sustainability

Dr. Som Niyogi, Assistant Professor, Department of Biology

Dr. Michael Pietrock, Assistant Director, Department of Veterinary Biomedical Sciences, Western College of Veterinary Medicine

Dr. Steven Siciliano, Associate Professor, Department of Soil Sciences

Dr. Pat Thomas, Professional Research Associate

Dr. Lynn Weber, Assistant Professor, Department of Veterinary Biomedical Sciences, Western College of Veterinary Medicine

Dr. Mark Wickstrom, Associate Professor, Department of Veterinary Biomedical Sciences, Western College of Veterinary Medicine

In addition, there are approximately 40 faculty and scientists who contribute to the interdisciplinary Toxicology Programs by irregularly supervising graduate students and/or teaching toxicology-related courses / course modules.
